Elementary Proficiency

INTERESTS

Astronomy

Programming

EDUCATION

B.S. Computer Science, Software Engineering
Southern New Hampshire University
05/2021 - Present

A.A.S. General Studies
Hinds Community College
08/2018 - 12/2020

PROJECTS

SalesTracker CL App (10/2021 - Present)
- Simple application to show knowledge of how to integrate C++ and Python in an OOP

Scrabbler Game (01/2021 - Present)
- A word game that allows you to play words from tiles pulled from a bag.
- Demonstrates knowledge of Python, specifically list management and logical data processing.

Mortgage Calculator CL App (09/2020 - 09/2020)
- School Project developed using C++ that calculates financial data(interest gained) based upon user-inputted variables such as an initial investment amount, interest rate and monthly contribution amount.

Escape Room Game (05/2021 - Present)
- A graded project for a scripting class in my degree program.
- Demonstrates knowledge of logical concepts of OOP languages and ability to complete a task as instructed.

Mancala CL App (09/2021 - Present)
- MY recreation of the centuries-old game Mancala developed using Java.
